

**CONTRACT
MANUFACTURING OF
STERILE INJECTABLES**

Jubilant HollisterStier CMO is an integrated Contract Manufacturing Organisation, able to manufacture Sterile Injectables and Non-Sterile Products. It is well positioned to service the entire spectrum of the Life Sciences industry requirements from virtual biotechnology organisations to large scale leading pharmaceutical and biopharmaceutical companies.

MANUFACTURING PROWESS

Quality is a part of Jubilant's corporate culture, it can be seen in every aspect of the Company from processes to manufacturing facilities. In the manufacturing facilities a full-range of support and services are provided to streamline the manufacturing process, such as on-site assistance from process qualifications and regulatory submittals through product release. Its quality unit maintains an integrated quality assurance program that emphasises quality design, validation and proper use of facilities and equipment.

With contract manufacturing facilities located across North America and India, the Company provides specialised manufacturing services for global leaders in the pharmaceutical and biopharmaceutical industries. Jubilant HollisterStier manufactures the following in the locations noted:

Sterile Fill/Finish - Spokane, Washington, USA

- Phase I - commercial sterile injectables, lyophilization

Sterile and Non-sterile Fill/Finish - Montreal, Quebec, Canada
