

**DRUG DISCOVERY
SOLUTIONS (DDS)**

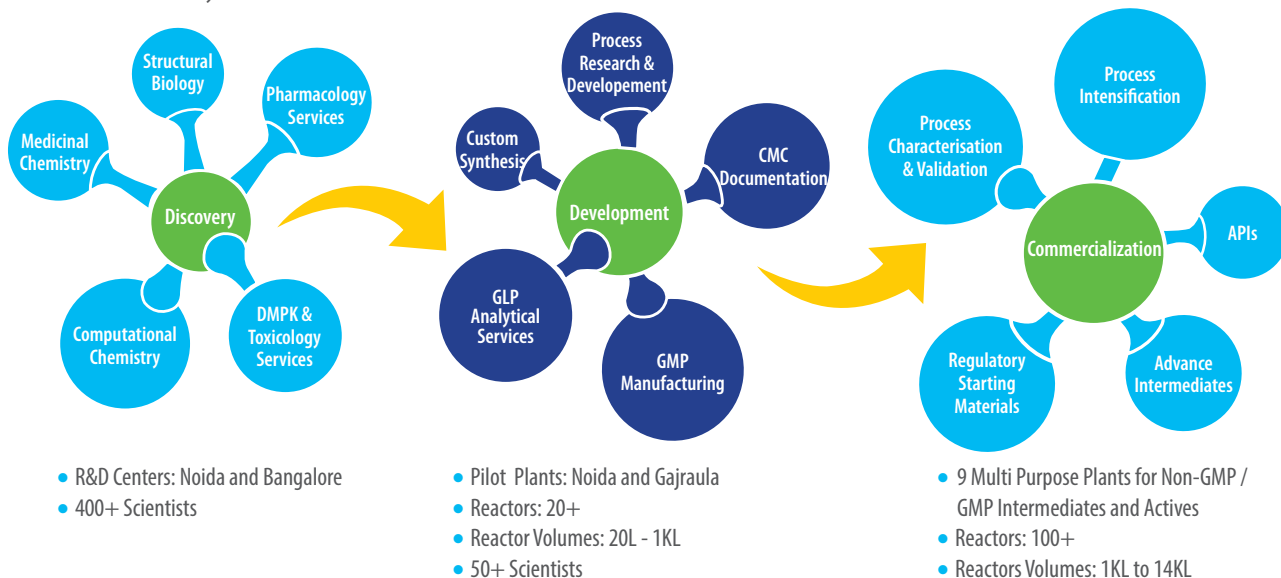

Drug Discovery Solutions (DDS)

The Drug Discovery Solutions business provides access to our in-house innovation as well as collaborative and partnership based services to generate pre-clinical assets in key therapeutic areas. Our therapeutic areas of expertise include **Oncology, Metabolic Disorders, Central Nervous System (CNS), Pain and Inflammation**. Our key offering in the integrated services business aims at providing the quality and speed to our collaborators in achieving their goals on lead and clinical candidate identification. Discovery as well as Developmental and IND support is provided through two key subsidiaries – Jubilant Biosys and Jubilant Chemsys.

Offering integrated solutions to customers with speed maximisation to develop a new lead

- A track-record of successful outcomes to large Pharma, Mid-sized and Virtual biotech companies on **over 60 integrated programs** in variety of therapeutic areas and diverse target classes
- Commitment to Innovation through investments in own asset development programs which are available for partnering with our clients
- Flexible business models including risk shared integrated projects (38 discovery milestones achieved to date)
- Consistent and quality delivery through many long term collaborations (FFS, FTE and integrated)
- IND enabling capabilities including Good Manufacturing Practice (GMP) and Good Laboratory Practice (GLP) toxicology.
- Single integrated site to support Discovery, Development and Manufacturing transitions
