

NUTRITIONAL PRODUCTS

(STRAIGHT INGREDIENTS,
PREMIXES & SPECIALTY
ANIMAL NUTRITION)

Jubilant Life Sciences' Animal Nutrition business is a leading manufacturer and supplier of a variety of products for poultry, dairy, swine, aqua and pet food. With complete quality control, FAMI-QS and ISO certified plants, flexibility of operation, speed to customer and a broad portfolio of specific premixes and additives, we are a trusted Partner of Choice for our customers.

PRODUCT CATEGORIES

Vitamin B4 – Choline Chloride

Jubilant Life Sciences is India's largest manufacturer of Choline Chloride, under the 'Anichol' brand name. Choline is also known as Vitamin B4 and is an essential nutrient that plays many important metabolic roles in livestock. To maximize their growth and performance, their diet must contain Choline.

Choline, a water soluble compound with vitamin-like properties, is widely distributed in feedstuff in the form of 'phosphatidylcholine', and its content has been standardized and reported by the National Research Council. However, variation of bioavailability & content of Choline in feedstuffs arises due to variation in prevailing crop growth conditions such as climate, cultivation, soil, location, fertilizer and other farming practices. Due to these reasons, Choline should be supplemented additionally in feed as it serves a number of critical functions in the body.

Anichol is offered in different variants, all of which duly meet international quality standards.

Product Variants

- Anichol 60 – Choline Chloride 60% Dry (Corn Cob Carrier)
- Anichol 50 – Choline Chloride 50% Dry (Silica Carrier)
- Anichol 75 – Choline Chloride 75% Aqueous
- Anichol RP – Rumen Protected Choline
- Anichol 99 – Choline Chloride 99% Crystals

Applications

Animal nutrition:

- Poultry
- Dairy
- Aquaculture
- Swine
- Pet food

Industrial:

- For oil & natural gas industry for clay stabilization

Pharmaceutical:

- Pharmaceutical companies formulating Choline enriched products

Manufacturing

The manufacturing facility is certified by ISO 9001:2008 and is FAMI-QS quality compliant with a production capacity of 22000 MT/annum. To have complete control over all quality aspects, the Choline Chloride manufacturing plant which is located in Vadodara, Gujarat, India, has a backwardly integrated corn cob manufacturing facility, which is unique to the organisation. The highly sophisticated on-site quality control laboratory along with the elaborate QC and QA protocols ensure that Jubilant stands up to its most precious promise to the world - consistent delivery of topmost quality. The Choline Chloride plant is with programmable logic controller (PLC) automated system for manufacturing best in class products. Raw materials that are conformed to specification are used for manufacturing of international standard products.

Specialty Products & Premixes

Jubilant Life Sciences offers Specialty Feed Supplements & additives and premixes to integrators, feed millers and commercial farmers across the globe, thus helping them to continuously increase their returns on investments. These specialty products and premixes are added in feed at different inclusion level that improves animal performance or improves quality of feed by preventing against certain disease conditions.

Product Range

The specialty product & premix range can be segregated in three broad categories:

Efficiency Enhancers:

- Acifeed: Broad Spectrum Feed Acidifier
- Brotox: Mycotoxin Binder
- Jubucid: Unique Acidifier from Feed to Gut Hygiene
- ToxiCOP: Broad Spectrum Mycotoxin Binder for Complete Organ Protection
- Hepafix: Liquid Formulation for Nourishment, Detoxification and Rejuvenation of Vital Organs

Essential Supplements:

- HiProMin: Glycinate Chelated Organic Mineral Premix for Poultry
- Jubimin: Inorganic Trace Mineral Premixes for Commercial Layers
- Jubimin Plus: Inorganic Trace Mineral Premixes

Performance Enhancers

- ButyMAX: Microencapsulated Butyric Acid for Targeted Microbial Action & Improved Gut Health
- EnCroMix: Organic Chromium Tri-picolinate Preparation for Energy Utilisation
- Hi Feed Phytase: Hi Performance Thermo-tolerant Micro-granulated Phytase
- JubiDOL: Feed Emulsifier for Digestion of Lipids
- Jubizym: Multi-Enzyme Preparation for Better Feed Efficiency
- OsmoBetaine: Betaine Hydrochloride for Osmoregulation in Livestock

Applications

Animal nutrition:

- Poultry
- Dairy
- Aquaculture
- Swine
- Pet food

Manufacturing Strength

The manufacturing facility is certified by ISO 9001:2008 and is FAMI-QS quality compliant with a production capacity of 5000 MT/annum. Feed additives & premixes are produced with adherence to highest production standards which ensure best in class product quality & makes the products free of related impurities and safe for human handling. Our quality assurance team releases the certificate of analysis of all approved materials and release for dispatch.

Customized Manufacturing Services

Apart from production and marketing of our own range of products; we are in the business of customized development and manufacturing of products for our valued clients. Our scientific capabilities in Research and Development power our throughputs and we have successfully developed custom products for a range of customers at economical costs. We believe in a relationship based approach and deliver value to cement our customer relationships.
